EXPERIENCE

Indiana Housing & Community Development Authority

Indianapolis, IN

IT Technical Support Specialist

August 2022 – Present

- Migrated 140+ endpoints to Windows 11 with the Indiana Office of Technology ahead of the October 2025 end of support, coordinating scheduling, software needs, asset inventory, and user support with zero significant disruptions.
- Executed an agency-wide refresh of 151 Dell laptops, pilot-testing candidate models before selection and coordinating procurement, compatibility surveys, scheduling, and post-deployment support.
- Perform vulnerability management in Rapid7 across 140+ agency devices, remediating findings and reporting results.
- Onboarded 30+ remote staff to Amazon WorkSpaces virtual desktops, establishing connections and training users.
- Piloted Microsoft Copilot before its statewide rollout, providing feedback and supporting access requests and training.
- Troubleshoot user access and technical issues in the agency's claims management platform.
- Recommend technology purchases to leadership; coordinate vendors on audiovisual and conference room projects.
- Produce and publish internal communications on the agency's digital signage network across two floors.
- Resolve 100+ help desk tickets monthly in ServiceNow.

Apple

Indianapolis, IN

Technical Specialist

August 2021 – August 2022

- Diagnosed and resolved hardware, software, and account issues for a high daily volume of customers.
- Configured new devices, migrated data, and set up accounts, explaining technical details in plain language.

Indiana University – Purdue University Indianapolis

Indianapolis, IN

Operations Lead, Campus Center & Student Experiences

January 2019 – May 2021

- Directed daily operations for a high-traffic student facility, coordinating workflows across departments.
- Trained and mentored new staff while maintaining service quality through staffing gaps.

TECHNICAL PROJECTS

Virtualized Homelab & Secure Remote Access

2023 – Present

Proxmox VE, TrueNAS, Ubuntu Server, Docker, Cloudflare, Tailscale, reverse proxy

- Built and maintain a Proxmox host running TrueNAS, an Ubuntu Server virtual machine with 16 Docker containers, and a Windows virtual machine, supporting storage, media, smart home, and web services.
- Implemented backup and disaster recovery with a TrueNAS RAID 1 mirror, weekly Proxmox snapshot backups, and an offsite cloud copy; validated recovery through a successful restore.
- Secured remote access through Cloudflare and a reverse proxy over Tailscale, with zero inbound ports open on the home network.
- Created a photography and videography portfolio site and a GitHub Pages site showcasing projects.

LEADERSHIP & SERVICE

Indiana Housing & Community Development Authority

Indiana

Disaster Response Volunteer

August 2026 – Present

- Contacted storm and flood survivors referred by Indiana 211 to assess housing needs, then placed displaced residents in hotels statewide through the temporary voucher program.
- Conducted community outreach in Muncie, LaPorte, Munster, and Gary, then recruited agency staff and volunteers to run outreach sites guiding survivors through available assistance.

EDUCATION

Indiana University – Purdue University Indianapolis (IUPUI)

Indianapolis, IN

- Bachelor of Arts in Communication Studies; Minor in Video Production.
- Independent research: 200+ hours studying the roommate assignment system; recommendations adopted by the department.
